| <input type="checkbox"/> Backpack | |
| <input type="checkbox"/> Rain gear (as needed) | |

Restricted Items

Expensive jewellery
(Please leave ALL valuables at home)

Electronics

Dress for Success

We highly recommend packing a second pair of items that are likely to get wet such as socks. This program focuses on plenty of time outdoors - check the weather and be prepared.

Labeling clothing with your child's name helps us to get items back to the right family if they intermingle. Some kids enjoy getting dirty at camp; our preference is to encourage this when possible. Please send **old clothes** for getting into some good old fashioned outdoor experiences.

Lunch

We are very active and kids often require larger lunches than in other settings.

The Centre does not receive garbage or recycling pick-up. We require all participants to pack out their garbage and encourage the children to bring a litterless lunch.

Please note we are a nut free facility, no nuts or products that may contain nuts should be brought to the Centre.

Camper Behaviour — The Three R's

It is our commitment to provide a rich and enjoyable experience for all participants. To assist us, please review our camper code of conduct with your child. We aim to create a safe and nurturing environment for everyone!

Respect yourself. All participants are expected, in accordance with their age, to take appropriate care of themselves (personal hygiene, dressing appropriately, water, food, sunscreen)

Respect others. We expect all participants to treat one another, and our staff, with courtesy and respect.

Respect the environment. The Camp Kawartha Environment Centre is located on Trent University's Wildlife Sanctuary. It is our responsibility to take care of these lands.

Please review the full Camper Code of Conduct online at

<http://www.campkawartha.ca/pdf/summer-camp/CamperCodeofConduct.pdf>

(For the benefit of all campers, we reserve the right to dismiss a participant who does not comply with the Code of Conduct).

Contact

In case of an emergency, you may contact the main Camp Kawartha office at 705-652-3860.

Please be aware that we do not have a receptionist at the Camp Kawartha Environment Centre.

If you need to talk to a staff member, please leave a message at 705-750-8699 and we will return your call by the end of the day.

Take Note:

BEEware: Camp Kawartha is proud to house an observational bee hive. With plexi-glass walls, this observational hive is designed to encourage campers to view bees at work from inside the Environment Centre. The bees enter the hive from a PVC tube located high up on the exterior of the building. Honey bees play a critical role in helping to pollinate plants. With a variety of apple trees near the Centre and pollinator gardens, the bees will help to ensure that there will be a healthy harvest of apples this fall.

We'd like to remind all visitors to the Camp Kawartha Environment Centre that there are always bees, wasps and stinging insects in any natural area. Please ensure that any students with allergies to bees come with the appropriate safeguards in place (an epipen – if required, antihistamine tablets etc.). We'd also like to remind visitors that there are some patches of poison ivy in the vicinity of the Centre. Closed toed shoes, long pants and hat (sun protection) are also highly recommended as well.

Tick Me Off: Though ticks (and Lyme Disease) are not very common in this area, there have been a few ticks reported in Peterborough County. Lyme disease can become a serious infection caused by a bacteria spread by the bite of blacklegged ticks (formerly called deer ticks). We highly encourage all families to do **TICK CHECKS** at the end of the day and to get in the habit of doing so after **every outing in the woods**. This is part of helping children to build solid routines around tick awareness and Lyme disease prevention.

The Peterborough City County Health Unit recommends a TICK CHECK when coming in from the outdoors:

- *Have a shower to rinse ticks off*
- *Woods clothing should be placed in the wash or hung outside*
- *Either with a loved one or alone with a mirror check your body thoroughly for ticks.*
- *Make sure to look in hidden areas like the scalp, between toes, armpits, back of knees, groin, behind ears*
- *Please remember that ticks can be tiny freckle sized or as large as a small grape when engorged.*
- *If a tick is found, put it in a screw top bottle or zipper closed bag and bring it to your local Health Unit*
